Ishita Chaudhary

LinkedIn: https://www.linkedin.com/in/ishita-chaudhary01/
GitHub: https://github.com/IshitaChaudhary01
Email: ishita8743@gmail.com
Mobile:+91-7078500138

Skills

Languages: Java, C++, C Programming, Python
Frameworks: HTML, CSS, NodeJS
AI & ML libraries: Scikit-learn, Keras, Matplotlib, Seaborn
Tools/Platforms: VSCode, Hacker Rank, GitHub
Soft Skills: Problem-Solving, Time Management, Adaptability

Projects

AnonyMate - GUI-Based PII Detection and Redaction Tool Apr 25
- Developed a Python tool to detect and redact PII from images and PDFs using OCR and regex.
- Integrated face detection, keyword matching, and structured JSON output generation.
- Built a GUI with Tkinter for interactive PII redaction and visual feedback.
- Used Tesseract OCR and custom utilities to ensure accurate PII recognition and masking

Tech Stack: Python,Tkinter, OpenCV, Pytesseract, regex, Tesseract OCR, JSON, Python utilities.

Sign Language Translator Mar 25
- Developed a real-timeASL translator using Python, OpenCV, and a CNN model for hand gesture recognition.
- Processed webcam input to detect and classify alphabet gestures with live visual feedback.
- Trained a deep learning model on anASL dataset using TensorFlow/Keras for accurate predictions.
- Optimized frame processing to ensure smooth, low-latency gesture translation in live environments.

Tech Stack: Python, OpenCV, NumPy, TensorFlow, Keras, CNN.

CPU Scheduling Simulator Feb 25
- Built an interactive CPU scheduling simulator supporting FCFS, SJF, SRTF, Priority, and RR algorithms.
- Implemented both preemptive and non-preemptive scheduling with process-level time tracking.
- Designed a clean HTML/JavaScript UI with dynamic input handling and Gantt chart visualization.
- Calculated key metrics like turnaround time and waiting time with real-time result display.

Tech Stack: HTML, CSS, JavaScript, GanttChart, FCFS, SJF, SRTF, Piority, Robin Round.

Training

Data Structures and Algorithms Training | Programming Pathshala | cerificate link Jun - Jul 25
- Completed an intensive hands-on training focused on core Data Structures and Algorithms using efficient problem-solving techniques.
- Gained strong proficiency in arrays, linked lists, stacks, queues, trees, recursion, sorting, and searching algorithms.
- Applied time and space complexity analysis (Big-O notation) to write optimized and scalable solutions.
- Solved structured coding problems to strengthen logical thinking, algorithmic design, and clean implementation practices.

Certificates

- Oracle Cloud Infrastructure- AI Foundations Associate | Oracle | certificate link — Sep 25
- Build Generative AI Apps and Solutions | Infosys | certificate link — Aug 25
- Cloud Computing | NPTEL | certificate link — Apr 25
- Mastering in C: Basic to Beyond | CSE Pathshala | certificate link — Mar 24
- Responsive Web Development | FreeCodeCamp | certificate link — Nov 23

Achievements

- **Earned Elite Badge in NPTELCloud Computing certification:** showcasing proficiency in cloud infrastructure, virtualization, and service models (IaaS, PaaS, SaaS).

Extracurricular Activity

- **Participated in the Generative AI mastermind program by outskill,** gaining exposure to generative AI concepts, real-world use cases, and industry-driven learning. | certificate link — Sep 25
- **Volunteered with Sankalp NGO, Meerut, for five weeks,** engaging in community outreach, awareness camps, and welfare initiatives for underprivileged groups. | certificate link — Aug 24
- **Participated in "Hack Quest", a 24-hour CTF challenge under concoction 2024**, gaining experience in teamwork, logical problem-solving, and competitive coding. | certificate link — Apr 24

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.19*** — *Aug 23 - Present*
- **Ved International School** — Meerut, Uttar Pradesh
  Intermediate; ***Percentage: 72.8%*** — *Apr 22 – Mar 23*
- **Dayawati Modi Academy** — Meerut, Uttar Pradesh
  Matriculation; ***Percentage: 81.6 %*** — *Apr 20 – Mar 21*
